

PARTNER PROGRAM

The Partner Dashboard

Run your venue or your events like a business — bookings, earnings, payouts, reviews and messaging, all in one console on web and mobile.

Real-time earnings

Instant bookings

Automated payouts

Prepared for prospective Haraan partners

WHY PARTNER WITH HARAAN

One console to fill your venue and sell out your events

Haraan brings players and audiences to you and hands you the tools to convert them — then pays you on time. No spreadsheets, no WhatsApp chaos, no guessing. Every booking, rupee and review lands in a single dashboard you can open on your phone or laptop.

The problem we remove

Before Haraan Scattered bookings across calls & chats, manual cash counting, no idea which slots or events actually make money, and payouts you have to chase.	With the Partner Dashboard One live view of demand, money and customers. Bookings confirm themselves, earnings tally automatically, and payouts arrive on a clear schedule.

FEATURE TOUR — 1 OF 3

Your command center: see the business at a glance

The moment you log in, the dashboard tells you how you're doing today and where to act. Every tile is live and specific to your venues and events.

1 KPI hero & daily earnings

- Today's earnings, bookings and momentum right at the top
- "Money by day" chart so you spot good and slow days instantly
- Revenue trend line across the period you choose

2 Conversion funnel & traffic

- See views → opens → bookings, so you know where you lose people
- Traffic sources: how customers actually find you
- Peak hours & days to price and staff smarter

3 Needs-attention radar

- Surfaces refunds, cancellations and gaps before they cost you
- Quick-action shortcuts to fix things in one tap
- No digging through menus to find what matters

4 Organizer score

- A single quality score customers can trust
- Rewards fast confirmations and good reviews
- Higher score = more visibility on Haraan

Built for phones too — the entire dashboard is tuned for mobile: logo topbar, an earnings hero, money-by-day widget and a premium sidebar, so you can run the business from the counter.

FEATURE TOUR — 2 OF 3

Bookings and money, handled end to end

From the first booking to money in your bank — every step lives in the console, itemised and auditable.

5 Turf & slot bookings

- Day slot-grid shows what's booked, open or blocked at a glance
- Add offline / walk-in bookings so your calendar is the single truth
- Cancel or close a day in one action; conflicts are prevented automatically

6 Event ticketing & check-in

- Sell tiered tickets and coupons for every event
- Per-event analytics: revenue by tier, sales pace, attendance
- QR check-in scanner validates tickets at the gate

7 Live earnings ledger

- Every booking posts to an itemised ledger you can trust
- Earnings stats and recent bookings update in real time
- Filter and reconcile without touching a spreadsheet

8 Payouts you can count on

- Track your balance and settlement account in one place
- Batch payout history shows exactly what was paid and when
- Transparent — no chasing, no surprises

Customers, reviews & reputation

- **Reviews page** — read your venue feedback, filter by rating, and see aggregate event ratings so you can act on what customers say.
- **Public host profile** — a branded page at haraan.app/host/{you}, editable by you, that links straight from every event and venue.

FEATURE TOUR — 3 OF 3

Your team, your customers, your growth

Haraan scales with you — add staff safely, reach customers automatically, and get help when you need it.

9 Staff & roles (RBAC)

- Invite staff by email with the exact access they need
- Role presets, plus scoping to a single venue or event
- Suspend access instantly; gate who can check-in tickets

10 Messaging automation

- Reach customers on WhatsApp & Instagram from one place
- Automated journeys, replies and STOP handling built in
- A usage meter keeps volumes and costs transparent

11 Plans & entitlements

- Start free; upgrade only when you're ready to grow
- Clear conversation quota and feature entitlements per plan
- See exactly what your subscription unlocks

12 Support & notifications

- A real AI assistant answers partner questions in-console
- Minimal support center with FAQ cards and live chat
- Notification inbox keeps you on top of what changed

“One login shows me today's money, tomorrow's bookings and last night's reviews. That's the whole job — done from my phone.”
